PERIOD COVER 2 nd Sem / SY 2024-2025	FINAL EXAMINATION	Date of Exam: May 13, 2025	
Course / Subject	CSPL101 – Programming Language	Score / Rating	
Name of Student Year/Course		Calibrated by:	DONABELL S. HERNANDEZ Department Chair Date:
Prepared By:	 DAVID ERIC S. ORETA Signature over Printed Name	Approved by:	RODRIGO C. BELLEZA. JR Dean Date:

Instruction:
Create an application or system that should be designed to be used by students, teachers or school personnel. The application or system should have two(2) versions, one is created using the programming language assigned to you during the report and the second version will be created using another programming language that existed and/or is still existing **EXCEPT** for the following:

- Java
- PHP(Laravel, Codeigniter and other PHP web framework)
- C
- C++
- C#
- Python(Django, Flask and other Python web framework)
- JavaScript
- JavaScript Framework (ReactJS, Angular, Vue.js etc.)

For example, if you choose facility reservation, you will create two version of the said application using the two programming language you have selected.

This is the group exam with the same groupings during the report.

The following should be discussed/presented during the final examination on May 13, 2025.

1. (0 – 5 pts) Introduction to your application. What is the application all about.
2. (0 – 5 pts) The Major operational features of the applications
3. (0 – 5 pts) Flowchart or Use case diagram.
4. (0 – 5 pts) Programming language features or components or constructs or elements you use in the development of your application both for ver1 and ver2. Discuss how these features were implemented in your application.

The following Scoring Rubrics will be used for this exam:

1	2	3	4	5
BEGINNING (Minimal and Limited Evidence of Achievement)	DEVELOPING (Some Evidence of Achievement)	APPRAISING PROFICIENCY (Adequate Evidence of Achievement)	PROFICIENT (Commendable Achievement)	ADVANCE (Exceptional Achievement)
0 – 1	2	3	4	5
